SPC-D60 PIPE CARRIERS

ABOUT THE SPC-D60

The SPC-D60 is a D6M XL or D6M LGP-based pipe carrier fitted with a special kit to transport pipes of various diameters. The hydraulic operated cradle arms require no special hydraulic power source and can be easily removed and re-installed. In addition, this kit can be made to fit your Caterpillar tractor.

FEATURES

- Carries pipe ranging from 6 in to 24 in
- Hydraulically operated cradle arms
- Can be made to fit your Caterpillar tractor
- No special hydraulic power source required
- Easy removal and reinstallation

HYDRAULIC SYSTEM

The top cradle tilts up hydraulically for loading and unloading, creating a safer work environment. The hydraulic cylinders are controlled from the cabin.

EASE OF TRANSPORT

The pipe carrying kit can be partially disassembled for transport, then easily assembled back again.

CUSTOM CRADLES

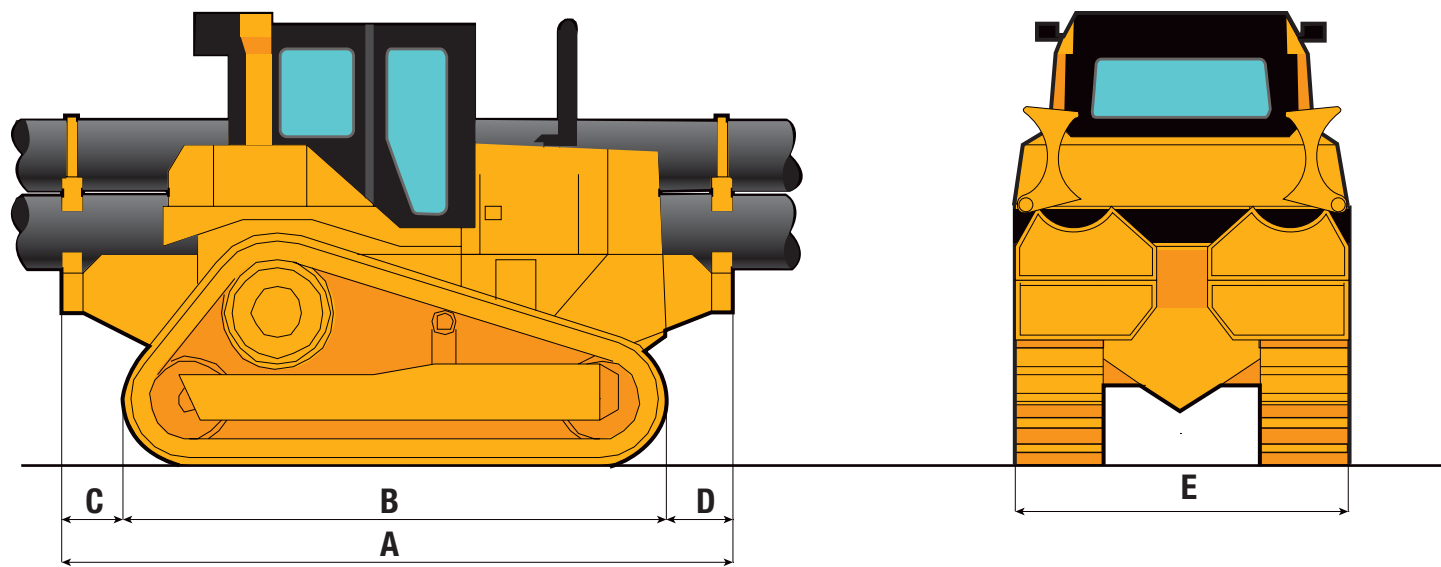

The cradles are custom-made to fit any pipe size combination the customer requires. They can be replaced to fit different pipe sizes within the machine's pipe range.
